Global Value Equity Composite Performance

Annual Summary

Description: This composite includes all discretionary, global value equity accounts measured against the MSCI World Index. The composite may be compared to other appropriate indices, as requested. Portfolios are diversified among large and mid capitalization stocks. BHMS utilizes a value-oriented, bottom-up stock selection process, based on fundamental research, and seeks to achieve returns that are superior to the returns of its benchmarks over complete market cycles, while taking below-average risks.

Barrow, Hanley, Mewhinney & Strauss, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Barrow, Hanley, Mewhinney & Strauss, LLC has been independently verified for the period of January 1, 1993 through December 31, 2017.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Global Value Equity Composite has been examined for the period of September 1, 2010 through December 31, 2017. The verification and performance examination reports are available upon request.

Notes:

- BHMS is an investment advisor registered with the SEC. BHMS is a subsidiary of BrightSphere Investment Group plc ("BSIG"), a publicly-held company traded on the New York Stock Exchange. A complete list and description of BHMS' composites as well as additional information regarding policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- This composite was created on September 1, 2010. * The composite inception date is September 1, 2010; the 2010 returns for the composite and benchmark reflect only the period from inception through December 31, 2010.
- Performance is expressed in U.S. Currency. The returns include the reinvestment of all income. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains prior to October 1, 2010, and net of withholding tax on dividends using withholding tax rates applicable to U.S. investors after October 1, 2010. Withholding taxes may vary according to the investor's country of domicile. Composite returns represent investors domiciled primarily in the United States and use withholding tax rates applicable to US investors. The MSCI World Index uses the maximum withholding tax rate of the company's country of incorporation applicable to institutional investors. All returns include the effect of foreign currency exchange rates.
- Gross-of-fees performance results are presented before investment management fees and custodial fees. This composite includes accounts that utilize unique performance-based fee arrangements. Net-of-fees performance returns are calculated by deducting the actual fees from the accounts. The assets in the Global Value Equity Composite consisted entirely of assets seeded by our parent company, BSIG, prior to December 2010. Fees on the assets seeded by BSIG are waived; therefore, net-of-fee returns are the same as gross-of-fee returns for the periods prior to December 2010. BHMS Global Value Equity Fee Schedule: 0.75% on first \$25 million; 0.70% on next \$25 million; 0.60% on next \$50 million; 0.50% on next \$200 million; 0.45% on next \$200 million; 0.40% on assets over \$500 million. Actual investment advisory fees incurred by clients may vary.
- Dispersion of annual returns is calculated for the accounts in the composite for the entire year by an asset-weighted standard deviation calculation method. Where composite dispersion is N.A., the information is not statistically meaningful due to an insufficient number of portfolios for the entire year. Three-year ex-post annualized standard deviation is not presented as there is less than 36 months of performance for this composite.
- In September 2017, the MSCI World Index return was revised for 2011 in the annual table.
- BHMS has added portfolio managers and analysts to support and enhance its research capabilities and asset growth. However, no alterations of composites, as presented herein, have occurred due to changes in personnel. Past performance is not indicative of future results.
